9 APR 1972

Honorable Clay T. Whitehead  
Director of the Office of  
Telecommunications Policy  
Executive Office of the President  
Washington, D. C. 20504

Dear Mr. Whitehead:

In response to your letter of March 23, 1972, concerning designation of a representative of Central Intelligence Agency at meetings of the Electromagnetic Radiation Management Advisory Council (ERMAC), Office of Telecommunications Policy, I appoint [redacted] to be CIA's representative at ERMAC meetings. [redacted] will also be our representative at meetings of the projected Interagency Working Group on Biological Effects of EMR.

STATINTL

DIRECTOR

MAR 23 1972

Honorable Richard Helms  
Director of Central Intelligence  
Washington, D. C. 20505

Dear Mr. Helms:

This is in reference to your letter of February 11, 1972, supporting the "Program for Control of Electromagnetic Pollution of the Environment: The Assessment of Biological Hazards of Nonionizing Electromagnetic Radiation." The responses of virtually all agencies involved supported the program.

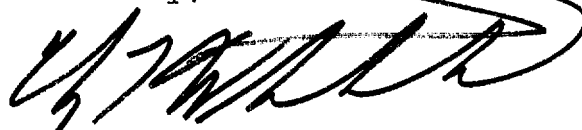

On March 7, 1972, the Electromagnetic Radiation Management Advisory Council, meeting with agency observers, reviewed the current status and developed plans for proceeding into the next phase of this effort.

Since the program is becoming increasingly active, I would appreciate your reviewing Central Intelligence Agency's participation to ensure that representatives are both technically and programatically cognizant and responsible in this area. Appointment or reaffirmation of your representative(s) would be most helpful.

In order to coordinate and implement this program effectively, I feel that it would be advantageous to establish a governmental interagency working group consisting of the designated individuals from participating Government agencies and departments. It is planned to convene the first meeting of this group on April 4, 1972, to consider the enclosed agenda.

Your active support of this program is appreciated.

Sincerely,

Clay T. Whitehead
